### Mission focus ...

Today we welcome Dr Clare Amos from the Jerusalem and Middle East Church Association (JMECA). She will be available after the service for Q&A and will also present at 2pm on broader issues facing the Middle East. You are more than welcome to bring your lunch from 1pm and join us for this fascinating presentation.

# The Church on the Heath

A community where everyone can encounter the transforming love of Jesus

### Here for the first time?

If this is your first Sunday with us at the Church on the Heath, we hope you feel very welcome. Do stay for refreshments after the service so we can get to know one another.

If you would like to keep in touch, please leave your details on one of the cards at the welcome desk near the entrance.

Energize, our children's groups, meet during the service. A supervised crèche for the under-threes can be found at the back of the overflow area.

As we don't take a collection during the service, there are baskets at the back if you would like to make an offering.

For more information on The Church on the Heath, visit our website [www.churchontheheath.org.uk](http://www.churchontheheath.org.uk) or contact the Church Office on 400236

### Patrick writes ...

We are away on an Easter break to the Lake District so won't be with you this morning. We're so sorry to be missing the visit of Dr Clare Amos as she brings news of our partners in Christ in the Middle East. May the context in which they live out their faith be both a challenge and support to us as we seek to serve Christ faithfully in ours.

I look forward to being back with you next week for our new morning talk series 'Changing World' as we think about some of the complex ethical issues we face as a church and society.

### Church Family Breakfast

**Sunday 6th May 9.30am** All-age worship starts with a 'bring and share' breakfast in support of Christian Aid. Bring your own cereal and we'll provide the milk, bowls and spoons (for a small donation (-:)! Our theme is 'Baking Life', to show how CA is globally helping communities react to climate change.
